SNEEZE GUARD SPECS

- x Plexiglass or another ~~opaque~~ transparent durable material that allows visibility
- x Front Panel width is 20-22 inches, height is 18 inches; a 3 inch deviation is allowed
- x Side Panels are 15 inches deep, height is 18 inches ; a 3 inch deviation is allowed
- x Panels should be thick and rigid enough to stand up on their own weight (i.e. they don't need external support on the desktop)
- x U-shaped (3 panels) or L-shaped (2 panels) configuration preferred
- x We would **require** a way to attach/adhere the sneeze guard to the desk without permanent damage
 - o i.e. we would consider suction cups, Velcro or something similar, no holes on desks allowed
- x Edges to be rounded and beveled to prevent student injuries
- x ~~Ideally the unit would be one piece of material that is bent/molded into one piece rather than 2 or 3 separate pieces attached together~~
- x A single unit, 2 or 3 piece unit will be considered as long as they are secure, that all panels are connected and do not allow germ particles to pass.
- x Must be able to withstand wear and tear from young students, shatterproof, and safe in a school setting
- x ~~Complete delivery must be taken by July 1~~
- x Delivery should be within 3 weeks of August 1, 2020 with an ideal delivery on August 1, 2020.
